

I am a listener of AIR 1, a service provided by translators. AIR 1 provides a valuable service by providing programming otherwise unavailable. If AIR 1 services were displaced, I would lose that programming not only in my community, but in other communities that I drive through as well, including San Bernardino, Barstow and Las Vegas. LPFM broadcasters should not have priority over the established translators I listen to on 90.1, 90.3, 89.5 and 100.7.
